

SINCE
1994

COMPANY
PROFILE

The Company

A.H. INTERNATIONAL, originated in 1994, was small entrepreneur with well-defined vision, and forecasted innovative products for domestic, commercial and industrial applications. In present, A.H International has grown up as a leading company in providing HVAC Quality Services

The basic idea remains in force till today,

“ Never Compromise on Quality.”

With our heartfelt sincerity together with technical expertise shared by our reputed manufacturers, we focused on the best available products in our portfolio. We are of the opinion that good quality product always pays you back with its lasting operation. This original idea has still been kept in force and even after more than 27 years of our successful market history we are supporting our customers with 100% original brands.

All our products are genuinely manufactured in Europe and we had joined hands with only those manufacturers that specialize in their respective field. All our associates have their own research and development laboratories which guarantee innovation and cutting edge performance. These products are further backed up by performance certifications such as ASME, CE, EU Norms and EUROVENT Certification.

We have the best quality products in HVACR sector, and same are offered to our quality conscious customers, we assure our customers to beat their services, with the slogan:

“ The Best is manufactured and the best you can get.”

Our Mission

“ Maintaining a global viewpoint, we are dedicated to supply products of highest quality yet at a reasonable price for customer satisfaction.”

Our Values

Our values are the essence of our company that give a broad and focused vision to our valuable clients, every time we deliver them the best part of our products and services.

Our company's project spectrum, our quality brands and our valuable team are the most valuable assets we are presenting in the market.

CEO Message

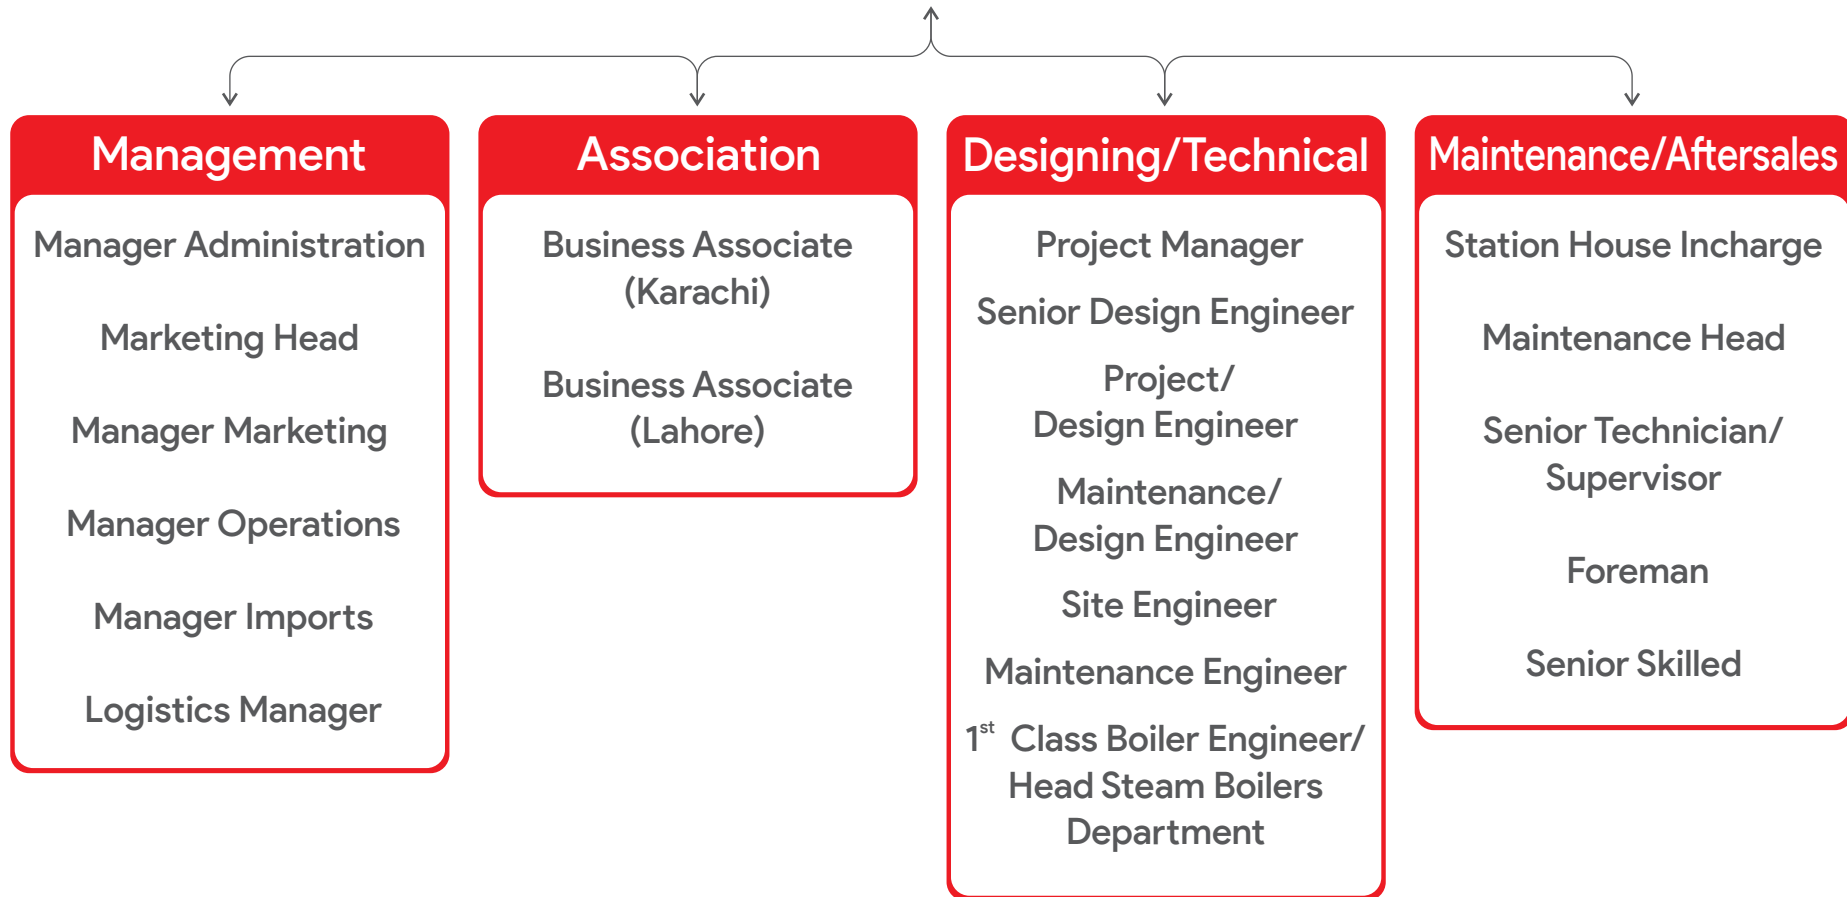

As a founder, promoter and CEO of A.H International with over 27 years of experience in the field of Heating, Ventilation, and Air Conditioning, we want to provide you with the best and most comprehensive technical consulting and engineering services, quality products and complete solutions for all your comfort needs. We have the expertise and capacity to design and implement even the most demanding technical solution for centralized HVAC systems for Domestic, Commercial and Industrial sector. The outcome of the quality trust developed by A.H. International is that today, we are the Distributors of many European brands in Pakistan. The major contributor to A.H International's success is without a doubt our employees and our associates who are based around the region and who are the backbone of this company. The support and encouragement provided by them to ensure the Company's ongoing success is a true testimonial. Our ultimate goal is to make the regional market as a symbol of Quality not Quantity. Improving the quality of life for society and work resources for the clients is what we do the best and this is what we believe will make us successful too.

I look forward to work together, grow together and create opportunities so that we can share the best quality products in the market.
